

## Art at Ontario International Airport: Call for Art Information for Artists

The Ontario International Airport Authority has appointed the Chaffey Community Museum of Art (CCMA) to manage arts at the airport. The program brings original visual art created by regional artists the two airport terminals, to be seen by more than 6 million passengers who use the airport annually.

Exhibits are displayed in wall-mounted glass display cases adjacent to the passenger arrival/departure gates within the secure area of each terminal. The cases can accommodate both 2D and 3D works of art.

Here are two examples:

*3D exhibit: Artist Gina Lawson Egan (day time)*

*Creating an understanding of the value art brings to everyday life since 1941*

*2D exhibit: Artist Jesus Cruz, Jr.: Night time*

The display cases are in pairs. . Typically, your artwork will be considered for only one of the paired cases. The display space is approximately 55”W by 38”H by 23”D. 2D art is displayed on back boards measuring 38”H x 54” W. Due to the way the display cases open, there may be other limitations on size for 3D art.
